

# GREAT PRESENTATION OF MONTARBO COMMERCIAL AUDIO FOR ITALY

**We are pleased to announce that Elettronica Montarbo, with more than 50 years of experience and leadership in the manufacturing of Made in Italy loudspeakers, mixers and processors, is entered in the Commercial Audio field too.**

From stages, Montarbo products reach also auditoria, meeting and conference rooms, hotels, factories and religious places.

For a brand like Montarbo, that has always had its strength in its R&D department and in its product reliability, this step is very important.

We gained our know-how in difficult situations – as live performances are – and now, we can offer it also in the digital networking field, that needs increasingly reliability and innovation.

To allow, both the Italian market and press & media agencies, to know full well all the features of our wide range of commercial audio products, Friday 11 November at the Palacavicchi Hotel (Rome) we will show for the very first time our new division MontarboCA,

Daily plan:

10.00 - Opening cocktail

11.00 – First session meeting

13.00 – Lunch break (buffet)

14.00 – Second session meeting ( possibility of testing exposed product)

17.00 – Conclusions
